

VOCAL COACHING

OVERVIEW PROGRAM

ABOUT VOCAL COACHING

At Encantada Live, we listen to YOU. We customize our vocal coachings to your learning goals.

We'll teach you the basics of singing, such as breathing and vocal technique. However important these elements are, there is a whole array of skills that we can help you develop. Maybe you want to learn how to improvise, or how to deal with nerves in front of an audience? Perhaps you want to improve your stage or studio performance, or get over the fear of hitting that high note? Does your throat hurt after singing? Do you want more control over your voice? We can help you!
